

Revision of vacation/floating holiday award procedures for Vehicle Maintenance

An agreement has been made between ATU 1287 and the Vehicle Maintenance department on how full weeks of vacation will be handled when the full week has not been picked and is open for single days of vacation and/or floating holiday selection.

The agreement is that no single day bids will be accepted until 30 days prior to the open week. Single day bids will be accepted until 2:00pm on the Thursday prior to the open week and will be awarded on a seniority basis. In the event that someone turns in a bid for the full week, then any and all single days request for that full week will become null and void and the full week will be awarded as normally done within the maintenance department.

Floating Holidays will be awarded under the same guidelines as if it were a single day of vacation.

By signature of this agreement it is understood that both the ATU 1287 and the Vehicle Maintenance department have come to an agreement on this change in the vacation/floating holiday award process.

It is also understood that this agreement does not change any other policies or procedures that affect any other departments within the KCATA.
